**ROTH Capital Partners, NGO Sustainability and the Permanent Mission of the Republic of Moldova to the UN to Host**

**“Energy Transition Industries: Solutions to Achieving SDG’s”**

***How Renewable Energy Can Combat Inflation in Emerging Nations***

**December 1, 2022 in New York City**

NEWPORT BEACH, Calif., November 29<sup>th</sup>, 2022 /BusinessWire/ --- [ROTH Capital Partners](https://www.roth.com) (ROTH), [www.roth.com](https://www.roth.com), a full service investment bank focused on serving emerging growth companies and their investors, today announced that it will co-host an event on December 1<sup>st</sup>, 2022 at UN Headquarters in New York City for the 4<sup>th</sup> consecutive year. This event will present climate tech companies that are helping to implement technologies and solutions towards achieving UN Sustainable Development Goals (SDGs).

NGO Sustainability, in Consultative Status with the UN, and Roth Capital, will be partnering by implementing UN SDG 17(Global Partnerships) at a Side Event at the United Nations on December 1st. Participating companies will be making presentations addressing financing sustainability, underwater robotic technology, high scale auto batteries for EVs, and regenerative agriculture for soil enhancement. The host country for this event is the Republic of Moldova.

According to Jesse Pichel, Managing Director of Cleantech Investment Banking at ROTH Capital Partners and also a Board Member of NGO Sustainability Inc., “Traditionally business has been the engine of economic, technological, and social progress, while increasingly contributing to social causes. There is growing consensus that private sector engagement is an indispensable tool for most effective outcomes.”

Invited companies will present for 20 minutes each (10 minute presentations followed by Q&A) and introduced by ROTH Research Analysts [Gerry Sweeney](#) and [Craig Irwin](#). Attendees will be UN delegates and staff as well as Board members of NGO Sustainability.

**Participating Companies Include – As of 11/28/2022**

This is not an offer or solicitation of the securities herein. Company description source – Company websites – 11/28/2022

<b>Company name</b>	<b>Company Website</b>	<b>Company Description</b>
Nauticus Robotics	<a href="https://www.naticusrobotics.com">https://www.naticusrobotics.com</a>	Nauticus Robotics, Inc. develops and offers ocean robotic solutions and cloud software to the ocean industry.
DevvStream	<a href="https://www.devvstream.com">https://www.devvstream.com</a>	DevvStream believes that the solutions necessary to reverse climate change exists in the world today but are encumbered by barriers such as lack of financing. DevvStream helps to remove this barrier by providing non-dilutive capital to enable companies with solutions necessary to reduce or eliminate CO2 emissions in exchange for carbon credit rights. Through these rights, the Company generates and manages carbon credits by utilizing the most technologically advanced, blockchain-based platform. The Company invests in green projects that generate renewable energy, improve energy efficiencies, eliminate or reduce emissions and sequester carbon directly from the air.
EoCell	<a href="https://www.eocell.com">https://www.eocell.com</a>	Founded in 2015 and based in Silicon Valley's San Jose, EoCell specializes in high-energy nano-silicon anode materials, innovative electrolyte technologies, and advanced graphite, silicon, and solid-state batteries. EoCell has developed an expert battery team from world-wide battery manufacturers with prior high-scale commercialization experience working with tier-1 automotive OEMs.
VRM Biologik	<a href="https://www.vrm.science">https://www.vrm.science</a>	The low cost, scalable regenerative agriculture method reverses topsoil damage, significantly increases yields, profitability and the quality of farmer's lives. A truly game changing

For those who are unable to attend in person at the UN, please join via [zoom](#).

Since 2013, Roth has been involved in approximately 175+ transactions for its Sustainability clients combined, with total transaction value of approximately \$26.5 Billion. (Source: Roth Capital Partners | 11/28/2022)

ROTH is a founding member of Sustain SoCal (formerly CleanTech OC), a trade association with its roots in cleantech economic growth that accelerates sustainability in Southern California through innovation, collaboration and education, as well as a member of Solar Energy Industries Association (SEIA).

**About NGO Sustainability**

NGO Sustainability's mission is to help preserve our planet for future generations by advocating for and promoting environmental stewardship globally. We also bring the ideal of "think globally, act locally" to life by engaging with the local community to advocate for matters such as increasing use of renewable energy and decreasing use of plastics and Styrofoam. Our major concerns are: greenhouse gas emissions (GHG), sustainable development, renewable energy, climate change, and the United Nations Sustainable Development Goals, particularly SDG's 7 (Affordable and Clean Energy) and 13 (Climate Action). Our Newsletter spreads awareness by disseminating the latest news in the world of sustainability and renewable energy to our extensive mailing list. We also regularly host meetings with guest speakers at the United Nations, which focus on the leading issues, technologies, and policies concerning climate change and sustainability. We are committed to furthering the UN SDG's and ultimately we hope that through our work we can leave this world better than we experienced it. For more information on NGO Sustainability, visit [www.unngosustainability.org](http://www.unngosustainability.org).
